Network of National ITS Associations

ITS Nationals – Vision

Vision:

To lead effective cooperation between National ITS associations and their members

ITS Nationals – Objectives

Objectives:

1. Support sustainable communication between national associations and their members in the area of ITS and the digital transformation of mobility.
2. Provide an inclusive platform to facilitate closer relationships between national associations including the promotion and support of each other's events and conferences.
3. Promote sharing of implementation best practice of ITS deployment.
4. Encourage collaboration and cross border research, educational projects and initiatives.
5. Facilitate the international deployment of ITS by our members.
